

THE VISUGLASS® DIFFERENCE

MICRO ADJUSTMENT STANDOFF MOUNTING BRACKETS

1. Features & Benefits

Vivid Writing Surface.

- Optically clear low lead tempered glass with a bright white coloring makes your words and sketches seem to come alive as you write on the board.

No green tint, no cloudy look.

- VisuGlass® shows marker colors noticeably better than other writing surfaces.

No sag design.

- Most glass boards are flexible and bow in the middle making it awkward to write on them. VisuGlass® has a unique construction and rigid structural hanging system to keep them flat and easy to write on.

Simple and Secure Installation.

- The steel backer and hidden frame system ensures VisuGlass® WhiteWalls® will install quickly and securely without additional reinforcement or damage to your wall surface.

No Visible Mounting Hardware.

- VisuGlass® WhiteWalls® feature hidden full width aluminum panel brackets that connect to 1" standoff wall brackets. Each standoff bracket uses adjustable leveler screws and U-shims to raise and lower each corner of the board and perfectly align panels to create a smooth, uninterrupted writing surface and account for uneven and concave walls.

All the advantages of regular glass boards.

- No ghosting or staining
- Will not fade over time
- Works with a variety of markers
- No scrubbing, carefree easy-to-clean maintenance

Permanent Pen & Eraser Holder.

- No flimsy add-on marker and eraser holder—elegant hidden marker & eraser tray.

Worry-Free Shipping.

- Rugged tempered glass and custom glass packaging mean no worries about shipping and delivery.

Made in the USA.

- Manufactured and shipped from our factory in Macedon, NY.
- Complete details at magnatag.com/WWG

Elegant **Hidden** Marker & Eraser Tray

2. Additional Options

Color Options

- Glass boards are statement pieces—12 standard color options to choose from.

3. Easy-Installation

- Walls are not always flat. Most walls require micro-adjustments to make sure that your panels match perfectly and sit flat. Our micro-adjustment brackets are easy to install and easy to use. With just a simple twist of a screw, you can raise and lower each corner of the board to make sure it matches perfectly with the next panel. For bowed or concave walls, simply loosen the screw and slip the necessary number of shims behind the bracket.
- Installation instructions can be found on magnatag.com/WWG

4. Size (h x w) & Approximate Weight

- | | |
|--------------------|---------------------|
| ■ 2' x 3' 31 lbs | ■ 4' x 6' 100 lbs |
| ■ 3' x 2' 31 lbs | ■ 4' x 8' 127 lbs |
| ■ 3' x 4' 54 lbs | ■ 5' x 4' 88 lbs |
| ■ 4' x 3' 54 lbs | ■ 6' x 4' 100 lbs |
| ■ 4' x 4' 74 lbs | ■ 8' x 4' 127 lbs |
| ■ 4' x 5' 88 lbs | |

5. Technical Data

Glass

- VisuGlass® is an ultra-clear soda-lime float glass with high visible light transmittance (>91% at 6mm) and a brilliant azure edge.
- Our quarter inch tempered glass is incredibly durable and can withstand an impact of 6,000 psi.
- Conforms to ASTM C 1036, 1048 and ANSI 97.1 specifications

Backing

- 24 gauge steel back and aluminum (6063 alloy with T5 temper) mounting framework with high bond adhesive used to securely attach steel to glass

6. Sustainability

We manufacture all of our VisuGlass® markerboards using premium architectural glass that complies with CPSC 16 CFR 1201 standards.

Other sustainability initiatives and programs include:

- Type III Environmental Product
- Cradle to Cradle Certified™ Bronze

- LEED® and Living Building Challenge documentation
- Material Ingredient Disclosure and Safety Data Sheets

7. Accessories

- Each glass whitewall includes an eraser and marker tray, dry-erase pens (4 colors), a machined aluminum billet eraser, glass cleaner, and lint-free wipes.
- A full array of glass board supplies including card holders, letter & number sets, symbols, color blocks, etc. can be found at magnatag.com/glass-board-supplies

8. Product Limitations

- Not recommended for outdoor use

9. Worry-Free Shipping

- We are so confident that our glass boards are strong and sturdy that if any board is damaged during transit we will immediately rush you a replacement, no questions asked. Your board will arrive packed tightly with a custom exoskeleton protecting the edges of the glass.
